**1) Please explain why this rollover request is necessary and when the funds will be requested in the coming year (400 words max).**

**While the Infant Building is nearly complete and is functionally operational, our heavy snow year has delayed exterior work, including necessary driveway and parking lot alterations. The rollover funds will be used to complete the remaining exterior work, including necessary driveway and parking lot alterations. Although the work remains weather dependent, it is anticipated that the rollover funds will be requested no later than July and August 2018.**

**2) What is your entity most proud of accomplishing? (100 words max)**

**Morningstar is most proud of its continuing ability to grow and adapt to meet a critical void in Big Sky's basic community infrastructure by providing accessible, affordable early education childcare services. Not only has our new Infant Building allowed us to expand our infant capacity but it has allowed us to provide even more specialized care for our Toddler 2s and Toddler 3s.**
