Goals | Project/Program 1

What are the goals of this project/program and how will they be measured?

The goal is to have well managed recycling bins throughout heavy use areas of Big Sky. Site-specific containers for public use in both Town Center and locations in the Community Park will address the public need, & facilities that address weekly events through the summer will add an additional layer of recycling/composting ability to our community. The goal is to reduce the landfill waste produced by the Big Sky community. By placing new container units that offer a uniform look/feel to recycling & compost across the community, we hope to shift the thinking & behavior of residents and visitors so that we are recycling more materials than we are putting in the landfill. These units allow for pre-sorting, crucial to effective recycling.

Project/Program 1 Spring Funding*

★ Was this project/program awarded funds in the FY21 Spring cycle?

If yes, please elaborate in the next question:

Yes

Project/Program 1 Spring Funding Explanation

★ If applicable, please describe how you met the measurable goals outlined in your Spring application:

We have requested no funds to date as the bins were not delivered. However the supplier expects to deliver all three bins during October 2020. Assuming the bins are placed in service during October, invoice submission will begin in November.

Project/Program 1 Additional Information*

★ What additional information would you like to share with the Board regarding this project/program?

Higher use of the bins and servicing costs are expected during the summer months due to the Farmers Market operations and utilization of the public areas while consuming food and beverage outside is expected to increase.

Community Messaging 1*

★ Please provide a brief (1-2 sentence) description of this project/program for community messaging purposes:

Recycling and composting are required to move the community towards sustainability. By placing collection containers in the Town Center and Community Park, we will create a system to achieve one step towards this goal.
